

JERIN J

AI ARCHITECT & FULL-STACK ENGINEER

Email: jerin81108@gmail.com | LinkedIn: linkedin.com/in/jerin-j-91328a366 | GitHub: github.com/jerin81108

ABOUT ME

Engineering student pursuing a B.Tech in Artificial Intelligence & Data Science at Shree Venkateshwara Hi-Tech Engineering College. Passionate about building practical technology solutions focusing on Machine Learning, Data Science, and web development.

EDUCATION

B.Tech – Artificial Intelligence & Data Science | Shree Venkateshwara Hi-Tech Engineering College — CGPA: 8.55

Higher Secondary Education | Bishop Ubagaraswamy Higher Secondary School — **Percentage: 70.83%**

TECHNICAL ARSENAL

Languages: Python, JavaScript (ES6+), HTML, CSS, SQL, Java (Basic)

Frameworks: Django, Flask

Platforms & Databases: Firebase, MongoDB, SQLite, Google Console, Kaggle

Tools & Deployment: Git / GitHub, VS Code, Netlify, Render, Vercel

INTERNSHIP EXPERIENCE

Training Intern – Machine Learning | Binary Spot Technology, Coimbatore (15 Days)

Gained practical exposure to machine learning concepts, data preparation, model-building fundamentals, and applying ML techniques to problem solving.

Working Intern – Web Developer | BK Builder, Tirupur

Built tailored web solutions to address the company's practical workflow challenges and improve operational efficiency.

SELECTED PROJECTS

Civix Spatial Intelligence Platform (Flutter | Firebase | Geolocation)

Civil engineering survey platform designed to digitize land and survey data collection, featuring database storage and GPS-based location tagging.

AuraDrive V2X Safety System (Python | FastAPI | WebSockets)

Real-time vehicle safety concept that processes live telemetry and applies predictive logic to identify collision risks.

GreenPulse Analytics Dashboard (React | Modern CSS | Data Visualization)

Interactive sustainability dashboard translating complex carbon-footprint data into clear visual insights.

ADDITIONAL DETAILS

Communication Languages: Tamil, English, Japanese

Hackathons: JCT College Hackathon, SRISTA of Sasurie College

Areas of Interest: Building data-driven applications, intelligent web solutions, Machine Learning, and Data Science.

KEY HIGHLIGHTS

Academic Excellence: 8.55 CGPA

Project Output: 10+ Projects

Certifications: 15+
